Continue the current activities.	▲
All good	
Make the learning process more enjoyable by adding extra curricular activities with the studies	
Include some real life experience during the classes	
Everything is upto the mark	
Teacher should prepare well before taking class	
nothing specific required	
Can improve quality by upgrading syllabus *Syllabus should be according to students capability and according to the way of study approach	
Institute have limitations but University have to do and think to motivate students with appropriate syllabus	▼
